*"Our experience working with the Flynt Group has forever changed my mind about major exercise production and execution. Working under an urgent timeline, Flynt Group designed an intricate, realistic training scenario based in Afghanistan complete with stellar hardcopy products and virtual simulations supporting over 150 Soldiers from multiple military intelligence units. The design and execution was superior to anything I've seen produced in over 20 years of service, and my Soldiers learned a great deal from working with Flynt Group's experts. Flynt Group is highly professional, delivers unmatched quality at an affordable price, and is an enjoyable work partner."*

*"During our Brigade's deployment in the Sunni Triangle of Iraq, we required a long-term, embedded, multidisciplinary expertise to assist us in classified strategic analysis and planning supporting the protection of regional critical infrastructures. We retained Flynt Group due to its reputation for critical infrastructure security and their experience in assisting anti- and counter-terrorism operations with world-class, actionable options. Their support was proactive and responsive to the dynamic security environment of a combat zone, and provided us with detailed and very-high quality products and plans."*

## TAILORED EXERCISES, INCLUDING:

### TABLETOP EXERCISE

- A lower resource event that presents realistic, relevant scenarios for leader and team discussion that validates plans and trains procedures.

### MAP EXERCISE (MAPEX)

- An efficient staff and key leader exercise that portrays a realistic scenario based in a likely deployment region on maps and overlays to train staffs in integration and control functions; an excellent, cost effective staff training tool.

### COMMAND FIELD EXERCISE (CFX)

- A multiple benefit exercise that tests communications systems while training commanders and staff, communications personnel, and small unit leaders within a realistic scenario.

### DEPLOYMENT EXERCISE (DEPEX)

- A scalable collective task exercise that validates and trains plans, timelines, and procedures for deploying from home stations to an Aerial Port of Embarkation (APOE) / Sea Port of Embarkation (SPOE).

### SITUATIONAL TRAINING EXERCISE (STX)

- Short, scenario-driven, mission-oriented exercises designed to train one collective task, or a group of related tasks or drills. STX modules provide units the ultimate in flexibility and complement larger exercises.

### FIELD TRAINING EXERCISE (FTX)

- A scalable, full-force exercise that drives operations within a realistic, extended duration scenario; the most comprehensive multi-echelon exercise and a “must do” prior to deployment.

## EXERCISE SERVICES

### EXERCISE DESIGN

- Coordination of all exercise design and planning activities.

### SCENARIO DEVELOPMENT
