

Active Shooter

An Active Shooter attack is a horrific event with the potential for mass casualties. Leaders and the capabilities they establish are ultimately the thin, bright line between the people in their charge and a suicidal mass murderer. Flynt Group equips our clients with tailored Active Shooter protection programs that protect personnel and mitigate an attack's impact on the organization. We design comprehensive programs that reduce the risk of an attack, protect employees, mitigate costs, and safeguard the organization's personnel, operations, and reputation. Our multi-disciplinary experts provide relevant, *Actionable Knowledge*® that assists leaders in fulfilling their responsibilities to employees and stakeholders. We will support you in developing your Active Shooter protection program with pragmatic solutions that protect life, operations, and reputation.

Standards Based Services and Knowledge Products

Flynt Group's services exceed internationally recognized standards and industry best practices. Our commitment to standards delivers quality.

- ISO 31000
- ANSI / ASIS PAP.1-2012
- NIJ 0108.01
- UFC 4-010-01
- UL 294
- UL 752

Active Shooter Protection Frameworks

Flynt Group will assess your situation and design tailored measures that fit your requirements. We deliver programmatic and operational frameworks establishing a program that is right for you. This approach assists you in preparing for an attack, equips you to mitigate it, and supports your recovery efforts.
