

# Cybersecurity

Corporate networks and data are essential to your operations. Safeguarding them from hackers, hactivists, unethical competitors, and disgruntled insiders is a challenge. Flynt Group equips you with *Actionable Knowledge*® to counter dynamic threats and reinforces your cybersecurity program, delivering full-spectrum protection and enabling you to conduct your important business without interruption. Our cybersecurity experts possess advanced certifications and our tailored assessments enable our clients to reduce risks and contain costs, while returning on investment.

### ATTACK TREE:

### Standards Based Services and Knowledge Products

Flynt Group assessments exceed internationally recognized standards and Industry best practices. Our commitment to standards is the foundation of our work, delivers quality, and reinforces our clients' own program's compliance with regulatory drivers.

- NIST SP 800 Series
- NERC CIP
- ISO
- FIPS
- Industry Specific Regulations

## CYBERSECURITY SERVICES

### NETWORK VULNERABILITY ASSESSMENTS

- External: Identify the ability of threat actors to compromise your network from the Internet.
- Internal: On-site scanning and hands-on assessment of internal networks to identify vulnerabilities.

### PENETRATION TESTING

- Controlled, disciplined Red Team exploitation of vulnerabilities to evaluate network security controls.

### SOCIAL ENGINEERING ASSESSMENTS

- Tailored, realistic testing designed to exploit human vulnerabilities and attack targeted systems.

### APPLICATION SECURITY REVIEW

- Identify the security vulnerabilities and risks associated with your organization's web applications.

### REGULATORY BENCHMARKING

- Audit compliance with regulatory requirements and industry standards, including NIST, ISO, NERC CIP, HIPPA, SOX, GLB, FISMA, and others.
