Flynt Group Awarded Infrastructure Risk Assessment

Kansas City, MO – December 17, 2012 – The Flynt Group, Inc., announced today that it has been selected to conduct a threat and hazard risk assessment of a regional infrastructure's operations and logistics hub. The assessment will identify specific vulnerabilities posed by several threats and hazards, and recommend security and policy measures to reduce risk, including improving the security of a specific class of highly-regulated environmental contaminants.

Flynt Group's CEO, Dr. Bill Flynt, commented "We are honored to be entrusted with the assessment of this critical operations and intermodal logistics hub, which also serves as a regional communications and disaster preparedness node. A significant aspect of the assessment is a secure storage area for safeguarding and monitoring dangerous toxins - even a small release would require many millions of dollars to remediate."

For information about the services we provide, please contact us at 877.FLYNTGP (877.359.6847) or Info@FlyntGroup.com, or visit www.FlyntGroup.com.
