Fortune Firm Retains Flynt Group for Special Risk Study

Kansas City, MO – June 30, 2011 – The Flynt Group, Inc. announced today that it has been retained by a Fortune firm to conduct special risk research and assessments regarding personnel, assets, and operations in multiple countries.

Flynt Group's CEO, Dr. Bill Flynt stated "The firm contacted us based on our recent work with another client. They are faced with a complex situation regarding the security of their CxOs, select technical employees, high-value assets, and operations in different countries. The issues are of interest to two U.S. Government agencies, and our client has requested that we lead a special risk assessment effort and develop a study that conclusively addresses the different requirements of both U.S. Government stakeholders while enhancing the protection of the firm's people, assets, and operations from transnational threats."
