Large Metropolitan Transit Authority Retains Flynt Group

Kansas City, MO – January 10, 2006 – The Flynt Group, Inc., announced today that a major Transit Authority has selected Flynt Group to conduct a Threat and Vulnerability Assessment and create an Emergency Operations Plan. The project is funded by the US Department of Homeland Security's Urban Area Security Initiative program.

The Transit Authority operates the public transportation infrastructure of a greater metropolitan region encompassing two large cities, as well as surrounding communities.

Flynt Group's President, Dr. Bill Flynt stated "We are delighted to have been chosen to support this important project to protect this vital system. As the Madrid and London bombings made clear, the health of a large city's economy and the well-being of its communities depend on its transportation infrastructure. We have also recently seen in the wake of Hurricanes Katrina and Rita that the transportation infrastructure is essential for effective response during a catastrophe. We are honored to have been selected over several firms competing nationally, and we look forward to serving this Transit Authority and the people of the region."

For information on how we can support your requirements, please contact us at 877.FLYNTGP (877.359.6847) or Info@FlyntGroup.com, or visit www.FlyntGroup.com.
